Jeff,

Allegiance has used the Qwest Testing environment on four different occasions in the past 15 months. I am the primary testing person who has conducted all those tests from the initial implementation forward to today.

The evolution of that testing process has to me been a pleasure to watch and be a part of. The introduction of SATE has greatly reduced the amount of time spent in every aspect of testing with Qwest and has made, what initially seemed like a huge headache, into really a pleasure to test with. The results are always consistent. Whether it be in the data returned, the timeframe for responses or the level of assistance I have received from my testing team, all have exceeded my expectations.

Allegiance is a Facilities based provider that primarily does REQ TYP A, B, and C orders (Unbundled Loops, Loop Service with Number Port, and Local Number Port). I am also a member of the SATE users groups where I have submitted several CR's for SATE enhancements that have been completed in a timely manner. Allegiance has also used the additional data request process to add values to the SATE environment with very little difficulty. If you have any additional questions about our testing experience with Qwest please feel free to contact me.

Thanks,

Ian J. Coleman

NEW ACCESS

WWW.NEWACCESS.CC

The Smart Choice for Local and Long Distance Service

Jeff Thompson
Qwest
Director - Wholesale IT
1005 17th Street, 10th Floor
Denver, CO 80202

Mr. Thompson,

This letter is to confirm that New Access is currently using IMA EDI 9.0 Pre-Order response information to populate IMA EDI Order transactions.

However, New Access currently extracts IMA EDI Pre-Order information from IMA EDI transactions and stores it in a SQL database. IMA EDI Orders are then successfully populated with the information from the SQL database without undergoing any conversions or modifications.

Regards,

David Lueck
